⌘ Intercoin tech helps any community launch their own, branded **community app** on the web.

Nothing to download. Loads nearly instantly.

Imagine thousands of **communities** around the world launching their own, branded **app** and **coin** to their own members:

- Celebrities and Influencers
- Conferences and Events
- Schools and Instructors
- Religious Organizations
- Political Campaigns

all powered by  Intercoin

Click below to understand the **Why**:

Network

The people who consume your content & attend your events often have impressive backgrounds, resources and personal networks.

- ❖ **Profiles** – give them a way to introduce themselves and link to their websites and socials.
- ❖ **Roles** – give a way for students to connect with authors, instructors, alumni, on the platform
- ❖ **Chats** – let people contact one another, giving and receiving value from the growing network

Benefits of the platform

2 Community Currencies

Don't just release your own app, but your own, branded, coin, too.

People can **earn** it for logging in every day, watching your content, correctly completing quizzes, making helpful contributions to your site, including **inviting** famous people with many followers.

You might also let them **buy** your coin.

Currencies for communities

Step 1: Private Presale of **ITR** token (happening now)

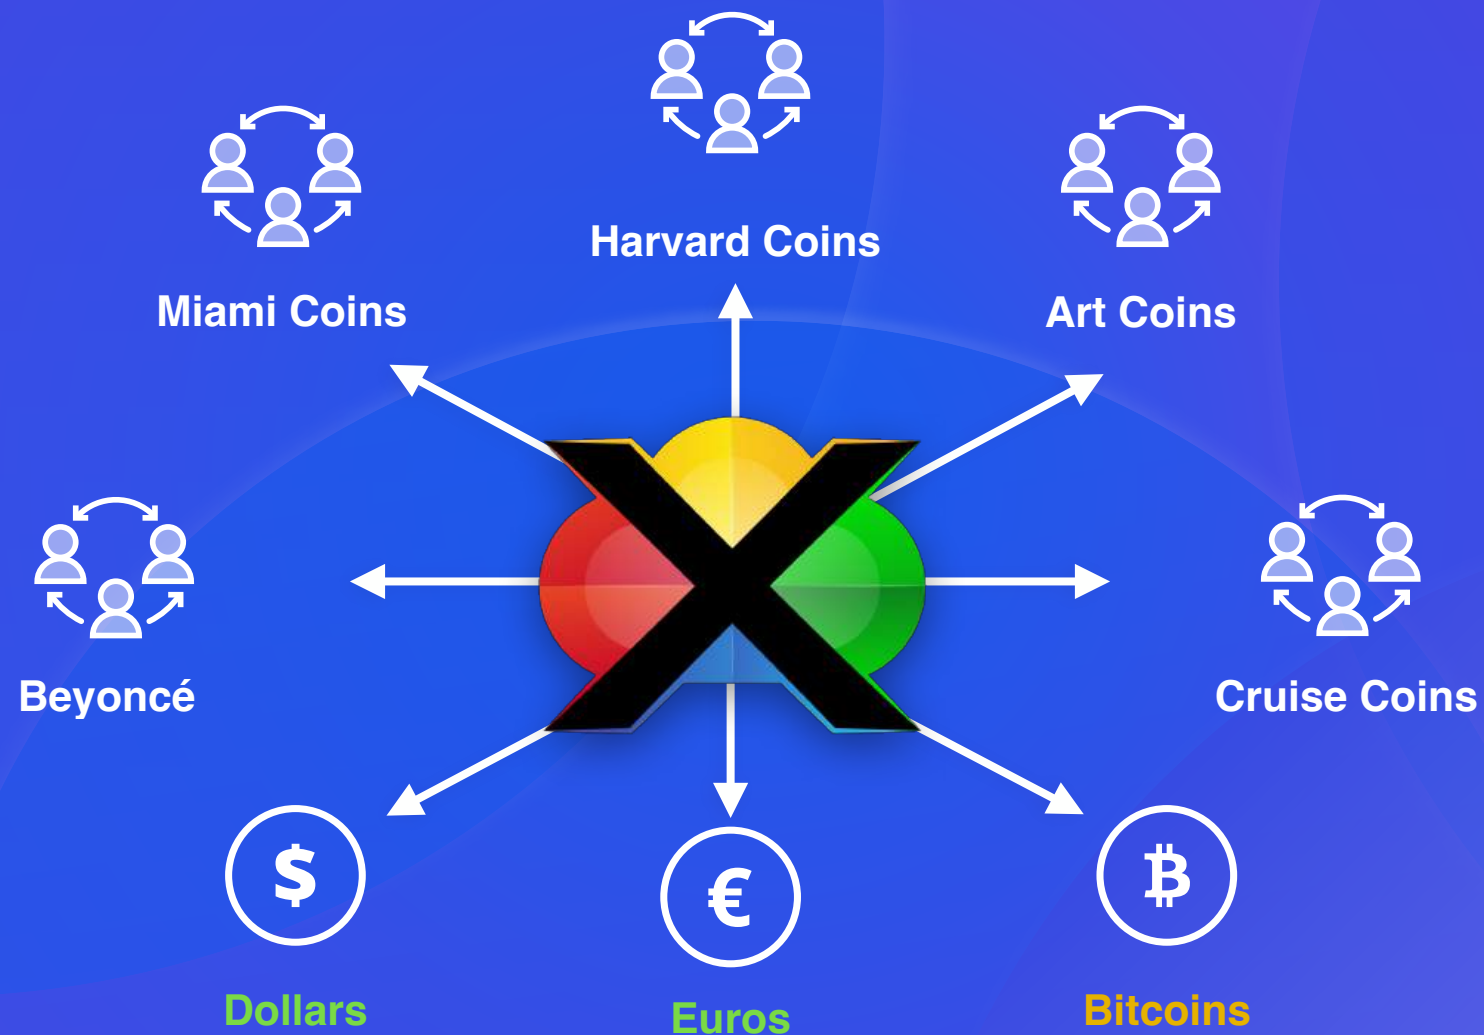

Price per ITR	Number of Tokens
\$0.05	First 10 million
\$0.10	10 – 20 million
\$0.20	20 – 30 million
\$0.40	30 – 40 million
\$1.00	40 – 50 million

ITR is our private InvesToR token:

- Available to Friends, Family & Angel Investors
- Limited supply, starts at 5 cents and increases
- Groups: bring friends to receive 25-50% more ITR
- Trade ITR among each other on PancakeSwap

Step 2: Launch **Intercoin X**

(Goal: April 2025)

**Intercoin is architected like the Internet:
to act as the bridge between local currencies.**

Step 3: Listing on Exchanges (after raising \$300,000)

Example: **MEXC** already offered to list Intercoin
(the #1 non-KYC exchange in the world)

COOPERATION AGREEMENT

This Cooperation Agreement (the "**Agreement**"), is entered as of the date of the completion of the last DocuSign signature (the "**Effective Date**"), is made by and between [Intercoin] the "**Client**", and [MX Global Ltd.] (the "**Company**") (collectively, the "**Parties**").

WITNESSETH:

WHEREAS, the Company is a digital asset trading service provider and is the owner of the digital asset trading platform mexc.com (the "**Platform**");

WHEREAS, the Client has a significant interest in a digital asset [INTER] (the "Tokens") and wherein the Client has issued/offered/distributed or will issue/offer/distribute [to be confirmed] Tokens (collectively, the "Project");

WHEREAS, the smart contract public address is [to be confirmed];

WHEREAS, the source code of the smart contract for the Tokens is [to be confirmed]; and,

WHEREAS, both Parties are interested in cooperating with one another through enabling the offering and trading of the Tokens on the Platform. Such cooperation between the Client and the Company shall hereinafter be referred to as the "**Cooperation**."

NOW, therefore, the parties, after proper consultations and in accordance with the relevant laws and regulations of Singapore, agree on the following terms and conditions in connection with the Cooperation:

1. **ARTICLE 1: REPRESENTATIONS & WARRANTIES OF THE PARTIES**

1.1. REPRESENTATIONS & WARRANTIES BY THE CLIENT

1.1.1. All warranties and representations made by the Client to the Company are true, accurate and complete, and free of any falsification, concealment, major omission and misleading information.

1.1.2. The relevant documents or materials submitted by the Client to the Company (including but not limited to the white paper, legal opinion, relevant financial statements and books, and reports on the operational status of the Client, etc.) reflect the Client's legal status, financial and operating conditions, etc., in a truthful and complete manner, without any falsification, concealment, major omissions or misleading information.

1.1.3. The Client has full capacity for civil rights and civil conducts, and can independently assume civil liabilities, sign and perform this Agreement. The Client will not violate any laws and regulations or regulatory provisions that are binding on it, nor will the Client breach any ruling, order, contract, or undertaking that binds or otherwise affects the Client.

1.1.4. The Client represents and warrants that the Tokens are not securities and shall not be considered

Go-To-Market Costs:

\$30,000 Legal Fees

\$60,000 Exchange Listing

\$100,000 Market Making

Famous Backers

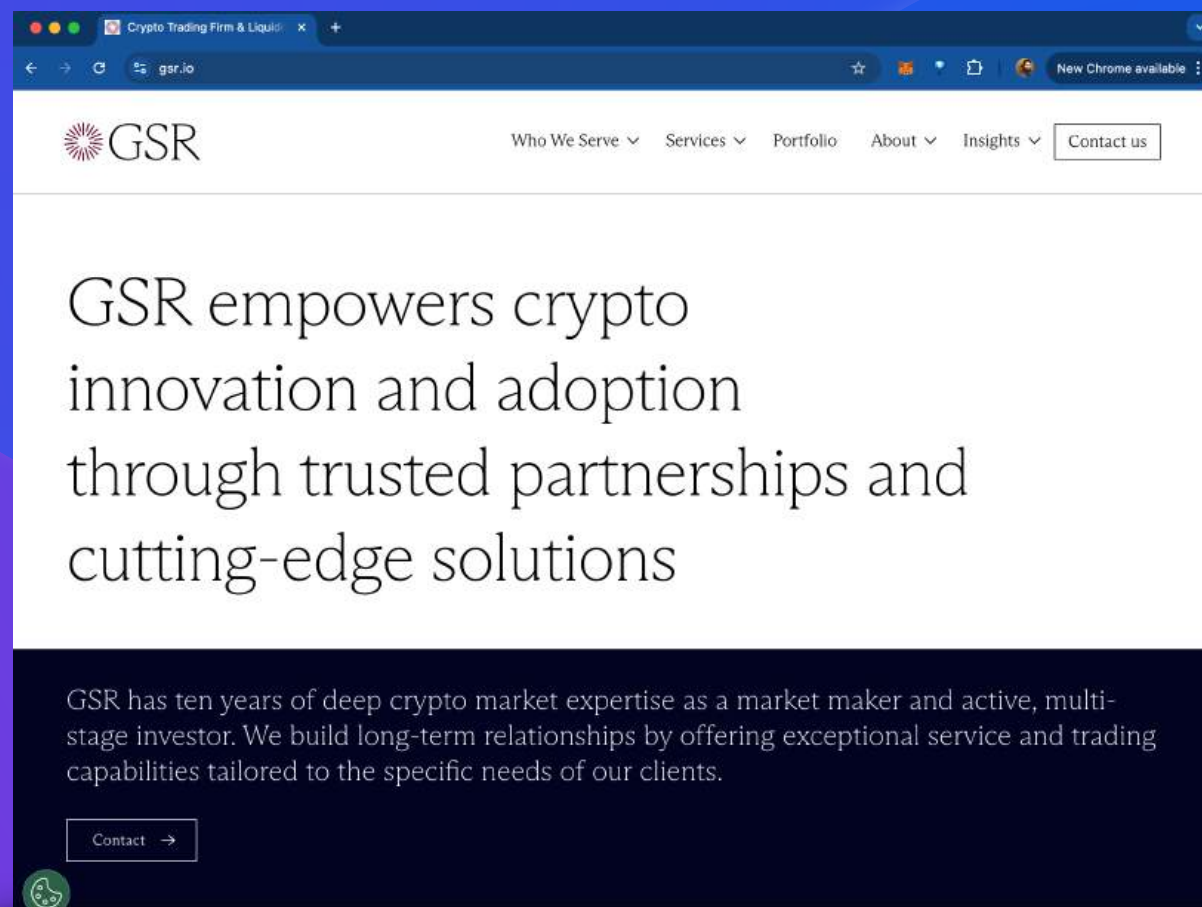

Balaji Srinivasan, former CTO of Coinbase, invested \$100K in us via his new rolling fund.

Among other things, Intercoin helps realize his vision for the "**Network State**".

Step 4: Boosting Demand

We can build a sales funnel to buy Intercoin X.
We can engage up to 1 million community leaders in over 100 countries who downloaded our apps.

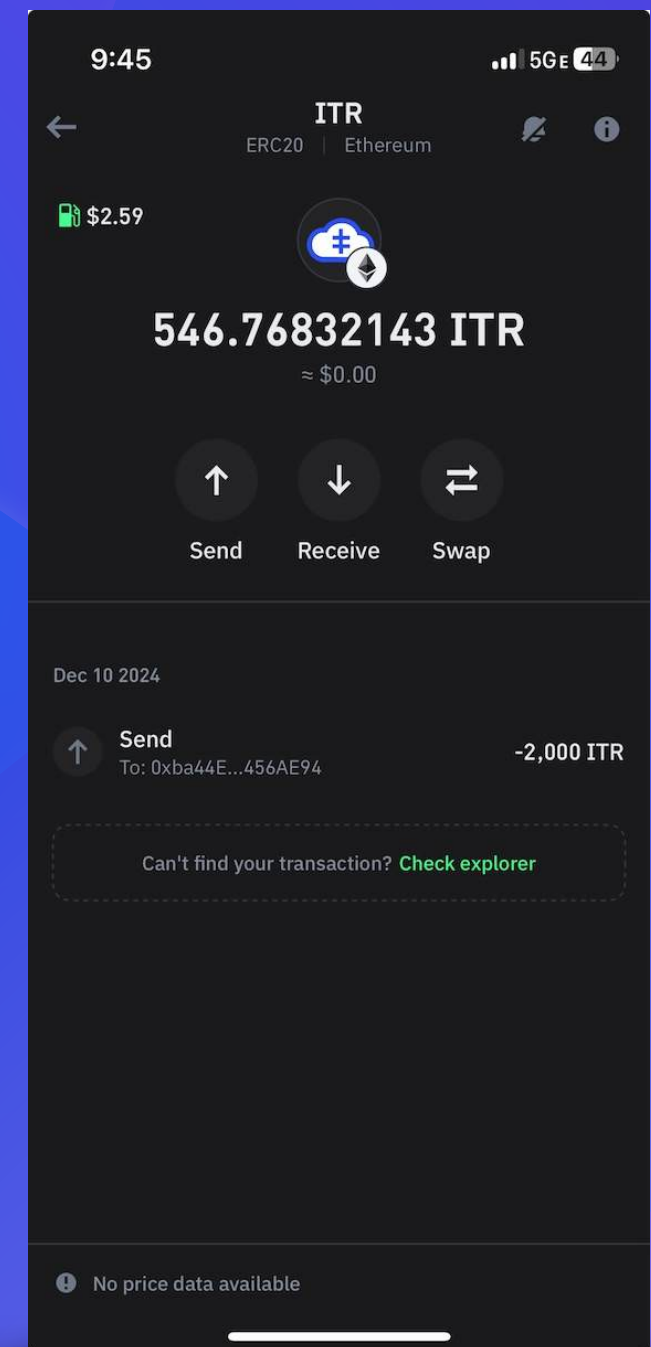

Market Making

The community can work with partners who will make a market and engage in OTC on the buy side.

How It Works

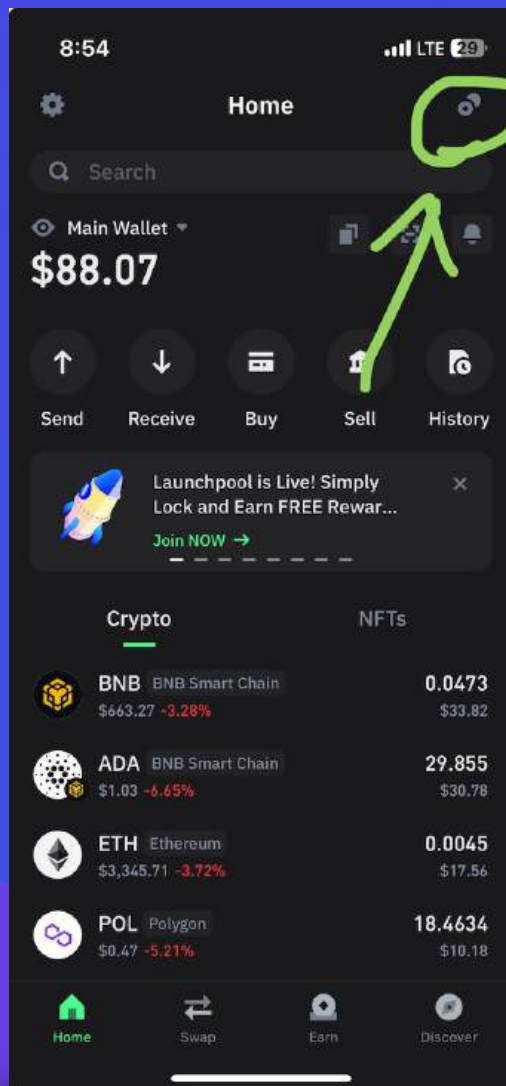

1. Buy **ITR** in Private **Presale**.
2. Keep it in your Crypto **Wallet**.
3. **Stake** it for 1 – 10 years, and start receiving **Intercoin** into your wallet every day.
4. **Sell** the Intercoin to community leaders around the world, either directly "over-the-counter" or to traders on crypto exchanges.
5. *(After your stake ends, optionally sell your ITR to the next investor.)*

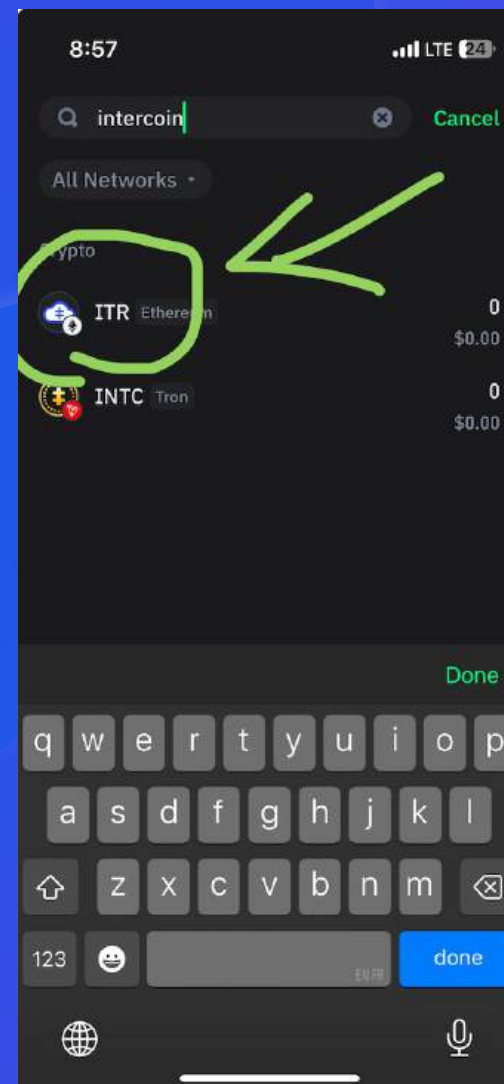

Example: download a wallet from trustwallet.com

Managing ITR In Your Wallet

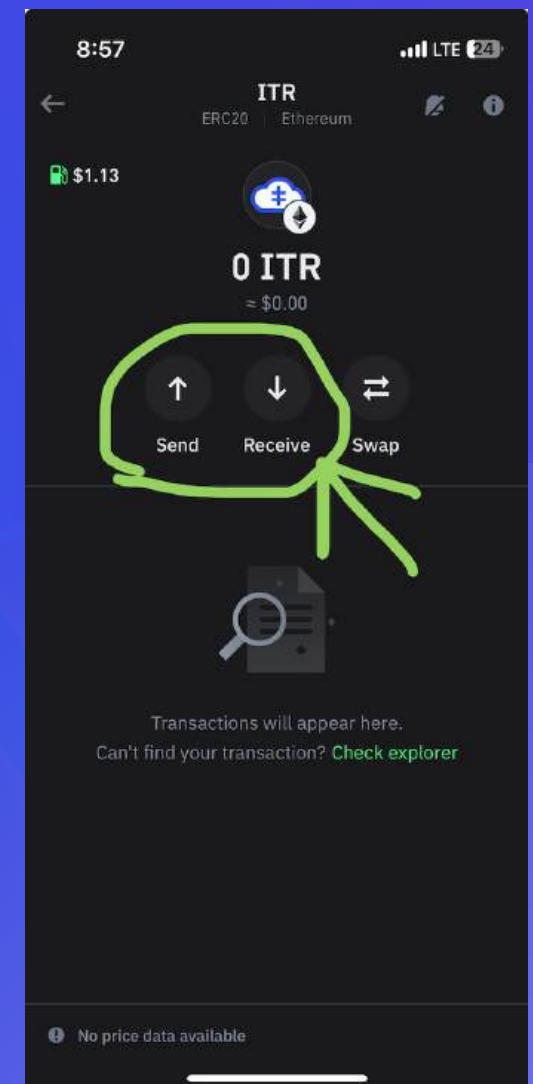

Get a crypto wallet such as Trust Wallet from trustwallet.com

Tap Here to
Add New Token

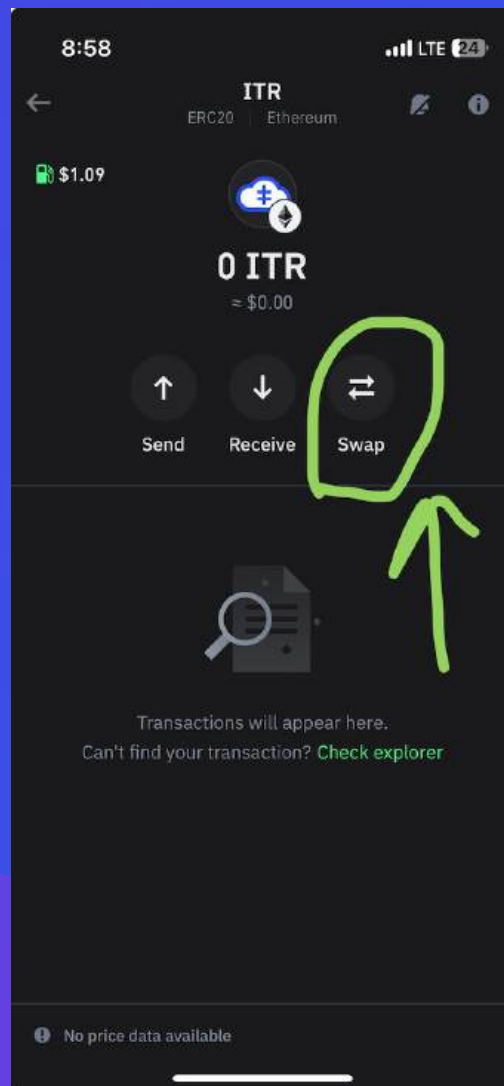

Enter "Intercoin"
And Tap on ITR

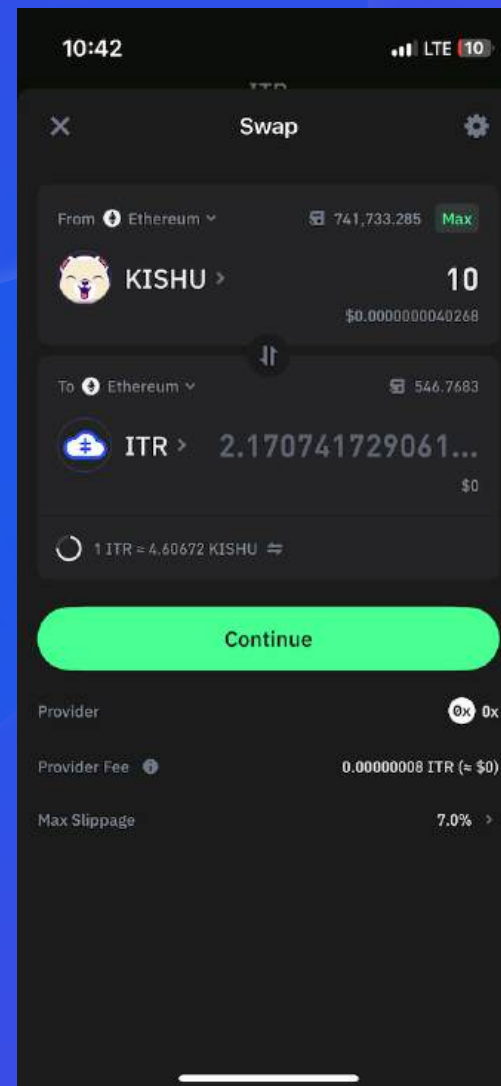

Now you can
Send & Receive

Trading ITR for Other Tokens

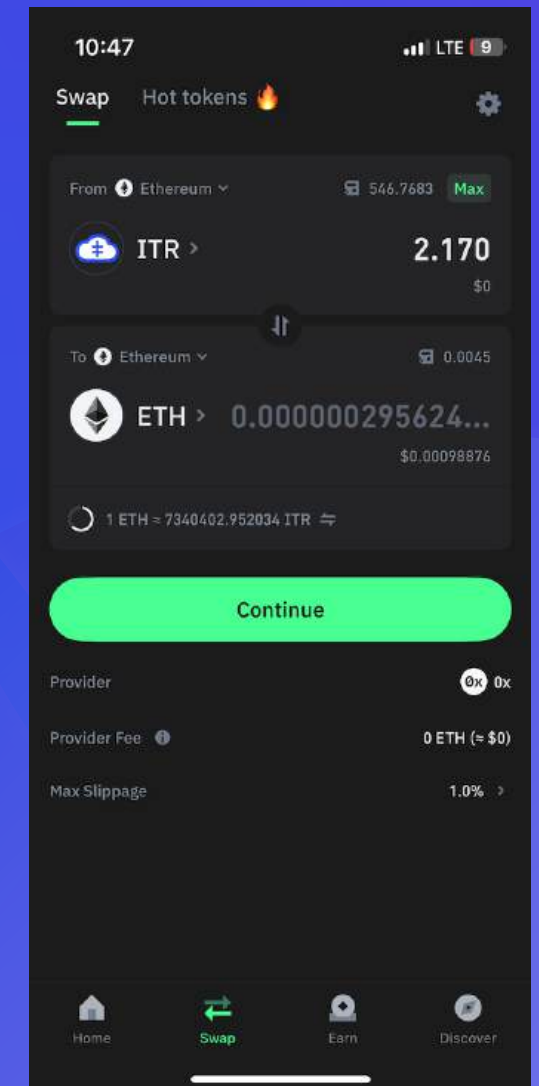

Many people have various "meme coins" in their wallet which they bought previously, and are now stagnant.

Tell them to tap "Swap" to trade ITR for another ERC-20 token

They enter how much ITR they want to receive in exchange for their coin.

Then YOU can swap ITR for any coin, like ETH or USDT

Trading ITR for Other Tokens

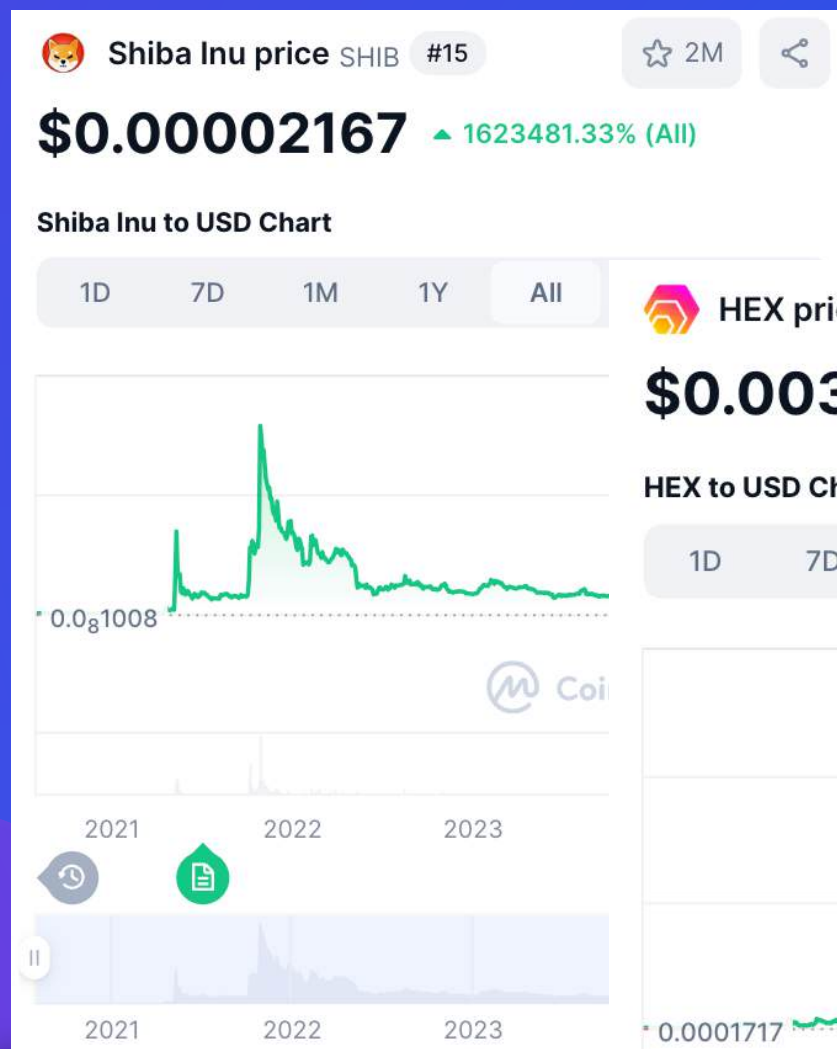

Many people have various "meme coins" in their wallet which they bought previously, and are now stagnant.

When you meet them at various events, ask "what's in your crypto wallet?"

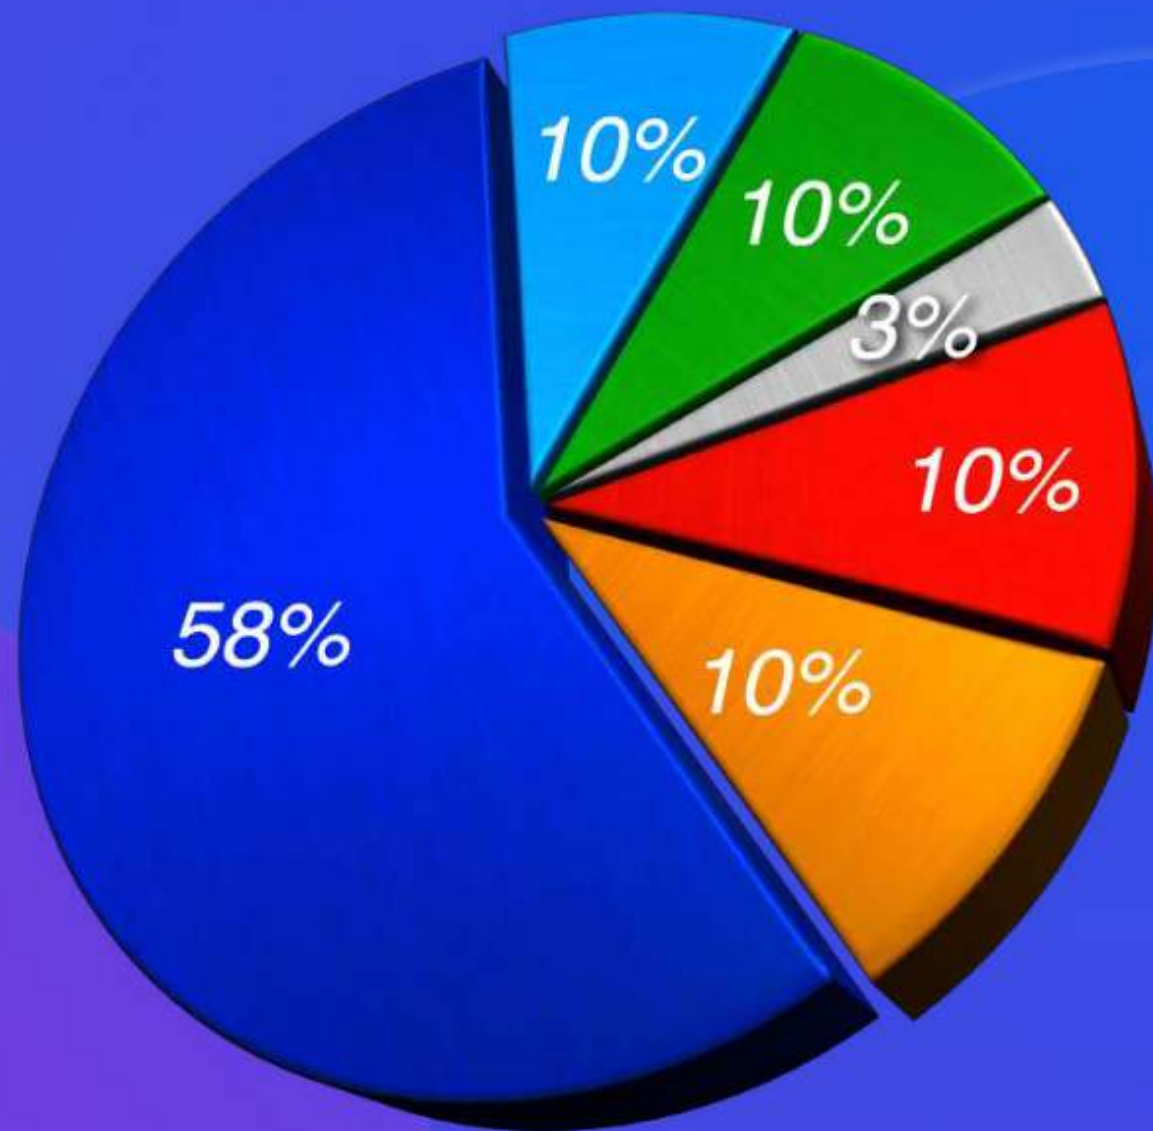

Often, they'd be willing to swap some of their old coins to ITR.

The coins still have liquidity, but ITR has potential future upside.

You help them trade one for the other.
